

CO₂ ↓ GUIDE

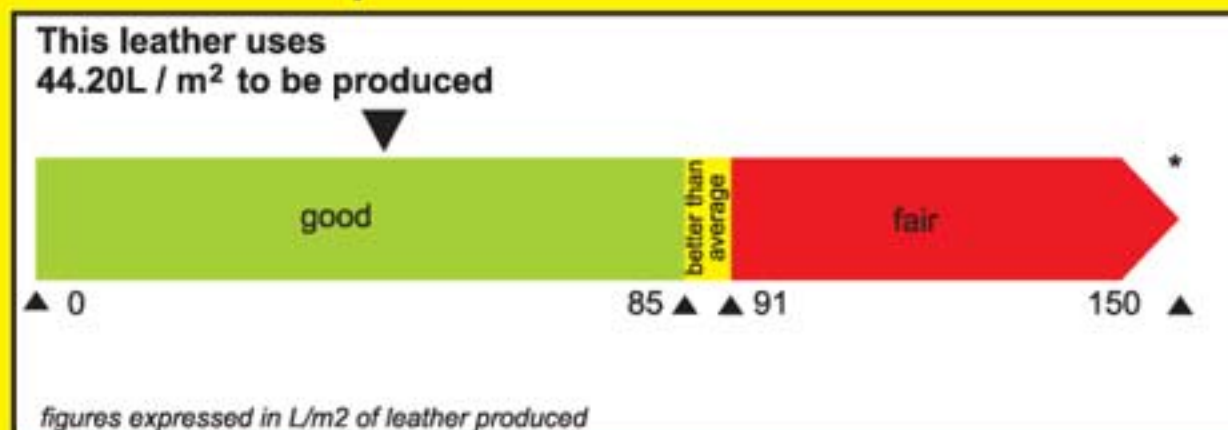

FOR: Ambush

Compare the environmental impact of this leather with others before you buy.

CO₂ Emission

Water Consumption

* This benchmark bar was designed using parameters from the LWG (Leather Working Group), a multi-stakeholder group facilitated by the BLC Leather Technology Centre that develops and maintain a protocol that assesses the compliance and environmental performance of tanners and promotes sustainable and appropriate environmental business practices within the footwear leather industry.

** The original numbers on the LWG protocol are expressed in MJm² and were converted into KgCO₂/1,000sf applying conversion factors in accordance to ISA TanTec geographic location.
